The insured is required to notify Sierra in writing to add a new driver or vehicle BEFORE allowing a person to drive your vehicles or before taking possession of a newly acquired vehicle. Insured understands if they fail to notify Sierra in writing and either a new driver or vehicle is involved in an accident, the carrier may deny their claim.

All vehicles owned, operated or under lease to the insured are required to be scheduled on the policy.

The insured affirms and certifies the above is true and correct to the best of their knowledge:

The insured is required to notify Sierra in writing to add a new driver or vehicle BEFORE allowing a person to drive your vehicles or before taking possession of a newly acquired vehicle. Insured understands if they fail to notify Sierra in writing and either a new driver or vehicle is involved in an accident, the carrier may deny their claim.

All vehicles owned, operated or under lease to the insured are required to be scheduled on the policy.

The insured affirms and certifies the above is true and correct to the best of their knowledge:

[illegible]

The insured is required to notify Sierra in writing to add a new driver or vehicle BEFORE allowing a person to drive your vehicles or before taking possession of a newly acquired vehicle. Insured understands if they fail to notify Sierra in writing and either a new driver or vehicle is involved in an accident, the carrier may deny their claim.

| 3.17            | Percentage of operations from refrigerated produce hauling.                                                 |
| 3.18            | Percentage of operations from non-refer produce hauling.                                                    |
| 3.19            | Percentage of operations from other operations or work.                                                     |
| 3.20            | Describe other operations in detail listed in Q 3.19.                                                       |
| 3.21            | Percentage of goods hauled are private passenger vehicles.                                                  |
| 3.22            | Percentage of goods hauled are heavy duty trucks above 10k GVW.                                             |
| 3.23            | Percentage of goods hauled are motorcycles.                                                                 |
| 3.24            | Percentage of goods hauled are watercraft.                                                                  |

|      |                                                                                                             |
|------|-------------------------------------------------------------------------------------------------------------|
| 3.25 | Percentage of goods hauled are refrigerated goods. These are refer risks.                                   |
| 3.26 | Percentage of goods hauled are non-refrigerated goods. These are trucking risks.                            |
| 3.27 | Percentage of goods hauled are general dry goods. These are trucking risks.                                 |
| 3.28 | Percentage of goods hauled are hazardous material goods.                                                    |
| 3.29 | Percentage of goods hauled are other goods hauled.                                                          |
| 3.30 | Describe other goods hauled details listed in Q 3.29.                                                       |
| 3.31 | SP code + policy + risk type + policy type + exp date + state + fleet + expiring carrier + Broker initials. |

Operations info continued

|      |                                                                                                              |
|------|--------------------------------------------------------------------------------------------------------------|
| 4.1  | Estimated next 1 year gross revenue.                                                                         |
| 4.2  | Does insured allow passengers in vehicle. Leave blank unless UW requests answer. Was asked for Benchmark.    |
| 4.3  | Does insured have transportation plates. Normally tow risks do not.                                          |
| 4.4  | Does insured have repossession plates. Only repo risk types have these.                                      |
| 4.5  | 24 hours or more is 12+ hours a day. 9-5p tow companies less than 12 hours.                                  |
| 4.6  | Unless operations are hazmat, this answer is no.                                                             |
| 4.7  | The answer is yes. We don't work with clients who do not use safety chains.                                  |
| 4.8  | The answer is yes. We don't work with clients who do not regularly maintain their vehicles.                  |
| 4.9  | The answer is yes. We don't work with clients who do have a written safety program.                          |
| 4.10 | Q TBD.                                                                                                       |
| 4.11 | Enter the correct radius per the insured. Most tow disabled vehicle operations are 96% < 50 miles.           |
| 4.12 | 2-3 sentence description of insured operations in plain language. Must match revenue sources and operations. |
| 4.13 | SP code + policy + risk type + policy type + exp date + state + fleet + expiring carrier + Broker initials.  |
